

Professor in the field of energy storage

Professor in the field of energy storage

CNESA Chairman Professor Chen Haisheng was Named Among ...

At the forefront of Engineering Thermophysics, Professor Chen has led groundbreaking work in the development of advanced compressed air energy storage (CAES) ...

Hydrogen energy program team , University of Technology Sydney

The Hydrogen Energy Program is led by Professor Zhenguo Huang. He is the Chair of the International Hydrogen Carriers Alliance. He is Chief Investigator on three research projects on ...

12 Assistant / Associate Professor jobs in Energy Technology

Find Assistant / Associate Professor jobs in Energy Technology here. To have new jobs sent to you the day they're posted, sign up for job alerts.

The School of Chemistry and Chemical Engineering of NCU has ...

It was reported that (by the School of Chemistry and Chemical Engineering) recently, the research team led by Professor Chen Yiwang and Professor

Tan Licheng from the ...

[Assistant Professor in Energy Storage jobs](#)

The Energy and Resources Group (ERG) at the University of California, Berkeley seeks applications for an open field tenure track Assistant or Associate Professor nine-month faculty ...

Storage

Storage Challenge and Opportunity in Storage Sustainable energy storage is foundational to moving away from fossil fuels, but advances are needed in the efficiency, reliability, safety, ...

[People , Energy Science & Engineering](#)

Professor Cui's research interest lies in the interdisciplinary field of nanoscience, energy and environment. He launched the research field of nanoscience for batteries.

LIMSET Professor in Electrochemical Energy Storage and All ...

LIMSET-UM6P is seeking qualified candidates for open-rank faculty positions in the field of electrochemical energy storage, with a focus on all-solid-state batteries. The successful ...

[School of Energy Science and Engineering](#)

E S N Raju P Assistant Professor
+91-361-2583691 (O) pesnraju88@iitg.ac
Research Interest (s) : Smart grid; Microgrid; Grid
integration of renewable ...

Application of Energy Storage Materials Operating Under ...

This special issue endeavors to make substantial contributions to the field by addressing key challenges in material synthesis, performance enhancement, characterization, mechanism ...

[Two Professors \(Assistant/Associate/Full\) in Energy ...](#)

The Faculty of Technology at the University of Turku is looking for two Professors (full) or Assistant/Associate Professors (tenure track) in Energy Technologies and ...

Interview with the Pioneer in the Field of Sodium Ion Energy Storage

Special Issue: Sodium Ion Energy Storage
Materials and Devices o Spotlight o Previous
Articles Next Articles Interview with the Pioneer
in the Field of Sodium Ion Energy Storage:
Professor ...

Associate Professor in Experimental Electrochemical Hydrogen ...

The Department of Chemistry at the Faculty of
Mathematics and Science i s seeking an
Associate Professor (Tenure Track) in
Experimental Electrochemical Hydrogen ...

[Liu Qingxia-ShenZhen Technology University](#)

Liu Qingxia, Chair Professor Profile:Liu Qingxia is
a member of the Canadian Academy of
Engineering. He is a tenured professor in the
Faculty of Chemical and Materials Engineering at
...

NU SEDS Professor Zhumabay Bakenov Elected to the Kazakh ...

Prof. Bakenov, who holds a Doctor of Engineering from the Tokyo Institute of Technology, is a leading expert in energy conversion and storage materials. He is also the ...

Research Professor/Associate Research Professor (Applied ...

The Geological Survey of Finland is seeking a research professor or associate research professor in applied geology, specialising in research related to energy systems and ...

[Faculty , Sustainable Power and Energy Center](#)

Professor Meng's group heads an interdisciplinary laboratory focused on energy storage (batteries and supercapacitors) and conversion (solar and magnetic). ...

Power and energy systems

The Power and Energy Systems Group in the Department of Electrical and Computer Engineering stands as one of North America's largest and most influential research hubs in the field of ...

CV

2014 - 2020: W2 Assistant Professor at the Department of Physics, TUM. 2010 - 2014: Group leader ("Adsorption and Electrocatalysis") at the Center for Electrochemical Sciences (CES) at ...

Empire Innovation Program

Battery recycling and battery management systems, Storage systems for both large (grid-scale) and small (portable or transportation) applications. The Watson College EIP ...

15 postdoctoral positions in energy-storage , scholarshipdb

A Postdoctoral Research position is available in the application of highly concentrated electrolytes to electrochemical energy storage and conversion within the group of Professor Robert ...

???????????????

???? "Reticular Chemistry and Sustainable Technology Laboratory" Led by Professor Zhang Yue-biao of ShanghaiTech University, it is engaged in the research and development of porous ...

Energy Storage

Professor Biswas is the Dean of the University of Miami College of Engineering. He is a faculty member in the Dept of Chemical, Environmental and Materials Engineering, with an affiliated ...

Assistant Professor in Sustainable Energy Systems (Thermo ...

The energy transition is one of the major societal challenges humanity faces today. To support a society where sustainable energy is available anytime and anywhere, we are in urgent need of ...

[Energy Storage , Maryland Energy Innovation Institute](#)

The University of Maryland (UMD) is considered by the US Department of Energy (DOE) to be among the top four universities in the nation in terms of battery research, as evident by its ...

Interview with the Pioneer in the Field of Sodium Ion Energy Storage

Interview with the Pioneer in the Field of Sodium Ion Energy Storage: Professor Yan Yu [J].Acta Physico-Chimica Sinica, ;2020, 36 (5): 191006. doi: 10.3866/PKU.WHXB201910062

[Faculty , Center for Future Energy Systems](#)

CFES research is conducted by leaders in the fields of energy materials, devices, and systems. Following are selected faculty researchers in the three core research areas.
