

# **Rooftop solar battery project financing options in New Zealand 2030**

## Overview

---

Is rooftop solar the cheapest electricity available in New Zealand?

Rewiring Aotearoa's research has shown that rooftop solar is the cheapest delivered electricity available to New Zealand households, and a new in-depth study by the Energy Efficiency and Conservation Authority (EECA) has backed that up.

Can you finance a solar upgrade in New Zealand?

Here's a breakdown of the best options to help you finance your solar upgrade. Many major banks in New Zealand are now offering very low or even no interest loans to put towards energy efficient upgrades including solar and battery storage. Paying little (or no) interest on any money borrowed to install the system dramatically increases your ROI.

How can New Zealand's leading banks make affordable solar solutions accessible?

Discover how New Zealand's leading banks make affordable solar solutions accessible through green loans. Green Loans provide an affordable, eco-friendly way to finance solar upgrades. With competitive rates, these loans offer immediate electricity savings, energy independence, and a reduced environmental impact.

What is rooftop solar?

Rooftop solar is a clean, low-cost energy source available to New Zealand homes. Rooftop solar is the cheapest source of energy a household can use, with zero emissions. Given the right circumstances, solar panels can pay themselves off in around 8 years, then deliver free energy for the next 20.\*.

What bank loans are available for solar systems and batteries?

Here are our preferred bank loans for solar systems and batteries: Top up your ANZ Home Loan at a fixed rate of 1% per annum for 3 years. You can apply for

the ANZ Good Energy Home Loan up to a maximum value of \$80,000 to purchase any of the “ANZ Good Energy Upgrades”. This includes:.

How many technology options are there in the NZ battery project?

A longlist of 28 different technology options was identified early in the NZ Battery Project by the NZ Battery Project team and MBIE Energy Markets policy team. The list was peer reviewed by the NZ Battery Technical Reference Group and Arup Ltd, and further considered by WSP Ltd.
