□AI Identifies Over 10,000 Bird Species□This bird feeder with camera has a 135° wide-angle and 2K HD lens, which can capture clear and vivid photos and videos during the day and night. It detects the movement of birds within 0.5s and sends an instant notification on the App to inform you. AI.

The Solar Powered Smart Bird Feeder Camera from Feit Electric is the ultimate gadget for birdwatchers and nature enthusiasts. This innovative bird feeder features an integrated smart camera, allowing you to take your birdwatching experience to the next level. Get an up-close look at local bird.

The feather wing design is both beautiful and practical as a bird feeder cover. It makes refilling bird seeds a breeze, just lift it up. And the crystal-clear 1080HD camera captures every detail of the birds. The detachable seed tray is also a nice touch for easy cleaning. Plus, the hummingbird.

The extended FOV lets you capture images and videos of multiple birds and their interactions around your feeder in a single frame. Whether it's early morning or late evening, the improved sensor reduces noise and captures more light, resulting in clear images during those active birdwatching times.

The innovative dual-light design combines white light and built-in infrared light, so day or night, rest assured your Custos camera will deliver. AI recognition technology allows you to easily identify the different birds visiting your feeder, identifying up to 10,000 bird species. Immerse.

For off-grid birding in 2025, the top solar-powered bird feeder cameras combine high-resolution optics, like 2.5K or 4K clarity, with AI recognition that can identify over 10,000 bird species. Devices such as the Hibird's 4K HD model offer sharp videos, slow-motion, and motion alerts, while solar.
