

# **Solar energy storage iq tax**

## Overview

---

The IRA expanded the investment tax credit by eliminating the requirement that a storage system be charged by solar and including stand-alone energy storage systems placed in service through 2032.

The IRA expanded the investment tax credit by eliminating the requirement that a storage system be charged by solar and including stand-alone energy storage systems placed in service through 2032.

Before the Inflation Reduction Act (IRA) was enacted in 2022, BESS could only access federal tax credit funding when powered by solar and required the business-owned storage to be charged with solar 75 percent of the time. The IRA expanded the investment tax credit by eliminating the requirement.

This white paper overviews provisions in the Inflation Reduction Act of 2022 (“IRA”) and associated implementation guidance in effect as of the date reflected that provide tax credits and incentives for solar, wind, and energy storage technologies.<sup>1</sup> Principally, the IRA extended, expanded, and/or.

Eolian’s Madero and Ignacio BESS assets in South Texas, acquired from Able Grid, are thought to have been the first of their type where tax equity investment was used to get the ITC for standalone storage. Image: Wärtsilä  
The Inflation Reduction Act brought a sense of confidence and certainty to.

The IRA shells out \$369 billion to tackle climate change and invest in the renewable energy sector, aiming to reduce carbon emission by 40% by 2030 compared with 2005 levels. The act substantially boosts solar, wind, and battery industries, as well as the energy storage market. It is the first to.

Certain qualified clean energy facilities, property and technology placed in service after 2024 may be classified as 5-year property via the modified accelerated cost recovery system (MACRS) under Provision 13703 of the Inflation Reduction Act of 2022. Owners of qualified facilities, property and.

This alert provides a summary of the IRA’s impact on tax credits for energy storage technologies, which were extended and significantly expanded.

Additional alerts will provide summaries of the IRA focused on credits for other clean energy technologies. Before the enactment of the IRA, the Section.
