

Solar skylight with battery backup

Overview

What is a solar powered skylight?

The VSS Solar Powered Skylight offers the comfort and energy savings of free Daylight and Fresh Air. Featuring a solar panel that captures available daylight to recharge a highly efficient, concealed battery powered operator and control system, the added convenience of remote control and rain sensor make this the ultimate Skylight solution.

What is a VELUX solar powered skylight system?

Go solar and save big! Our most energy-efficient standard flat skylight, the VELUX Solar Powered “Fresh Air” Skylight System features a small solar panel. This panel collects available daylight to charge an internal battery-powered operating system. For hands-free operation, this skylight pairs with a remote control or VELUX ACTIVE with NETATMO.

How does a solar skylight work?

The solar panel powers the light during the days. The Day & Night model features a solar charged battery for night usage. A premium feature is a motion sensor that automatically turns on the light when you enter the room and turns it off 10 minutes after you leave. The innovative MaxLED24 solar skylight is a highly advanced Australian LED skylight.

Can a solar powered skylight light a dark room?

The standard is operates when the sun is shining. The MaxLED24 has a solar panel built in battery that powers the skylight at night or on cloudy days. The solar powered LED skylight offers a smart, new choice for customers looking to lighten dark rooms. The MaxLED light brightness in the room can easily be set to any level with the remote control.

How does the solar-powered Fresh Air skylight system work?

The Solar-Powered Fresh Air Skylight System includes a white, room-darkening

solar-powered shade. It utilizes a solar panel to capture available daylight for opening and closing the skylight. A rain sensor is built in to close the unit in the event that inclement weather arises while you're away.

What is the maxled solar skylight?

The MaxLED Solar Skylight consists of a roof mounted high performance solar panel. It comes with a choice of a round or square LED light fixture (diffuser) for the ceiling. High quality 30W solar panel that can be easily mounted on all types of roofs, is used to capture the sunlight. The solar panel converts the sunlight into electricity.
