

Solar with battery tender price in Italy 2025

Overview

The average winning bid prices were €88.92/MWh for projects under 1 MW and €79.86/MWh for projects over 1 MW. Italy will allocate €323 million in the second round of agrivoltaic bidding, which will remain open until June 30, 2025.

The average winning bid prices were €88.92/MWh for projects under 1 MW and €79.86/MWh for projects over 1 MW. Italy will allocate €323 million in the second round of agrivoltaic bidding, which will remain open until June 30, 2025.

Italy's first solar auction under the transitional FER X incentive scheme drew 17.5 GW in project proposals and an additional 2.87 GW in wind bids, according to state-run energy agency Gestore dei Servizi Energetici (GSE). From pv magazine Italy The first solar energy auction under Italy's new.

Clean Horizon has released its latest Energy Storage Price Forecast for Italy, providing valuable insights into one of Europe's most dynamic emerging markets for battery storage. Italy is accelerating its energy transition with ambitious targets and a robust policy framework, aiming to deploy 71.5.

Italian Electricity Grid Terna has recorded more than 100 GW of requests to participate in the energy storage auction scheduled before summer 2025. The first phase of the MACSE tender may well be the biggest battery procurement held at this stage in Europe, reflecting the huge interest from battery.

The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's president for grid development strategies, Francesco Del Pizzo, has confirmed. After months of speculation and a postponement from the initially planned July date, it's clear.

Let's cut to the chase - battery storage costs in Italy currently range between €400-€650/kWh for commercial systems. But wait, that's like quoting pizza prices without specifying toppings! Here's what really matters: Fun fact: A Sicilian dairy farm recently slashed energy bills by 70% using Tesla.

Italy will allocate €323 million in this second agrivoltaics tender which is open until 30 June 2025. Image: Ampt. The Italian Ministry of the Environment and Energy Security (MASE) has launched a new agrivoltaics (agriPV) tender. Held by Italy's energy management agency Gestore dei Servizi. How many MW of solar power will Italy offer?

The auction also accepted proposals for wind power projects, which totaled 2.87 GW. No bids were submitted for hydropower or residual gas from depuration processes. Italian authorities expect to allocate more than 600 MW of solar photovoltaic capacity through the auction.

How many solar project proposals are there in Italy?

From pv magazine Italy The first solar energy auction under Italy's new incentive scheme for renewable energy, the "transitional" FER X program, has attracted 1,387 project proposals with a combined capacity of 17,537 MW, according to Italian energy agency GSE. Prequalified project developers have until Sept. 12 to submit final offers.

How much does a solar plant cost in Italy?

Developers submitted maximum discounts ranging from 2.01% to 7.91% off the auction ceiling price of €0.078175 (\$0.084949)/kWh. The lowest accepted bid was €0.07199/kWh for a 2.7 MW solar plant in the province of Ancona, central Italy.

Will Italy's agripv tender boost solar?

More details regarding Italy's agriPV tender can be accessed here (in Italian). Both tenders could give a boost to solar PV installations in the country, which saw its highest solar PV additions in over a decade. Boosted by a 163% year-on-year growth for utility-scale solar, Italy added 6.8GW of PV in 2024.
