

# Standalone energy storage tender price in Israel 2030

## Overview

---

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. From ESS News.

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. From ESS News.

The tender process concluded shortly before the end of 2020, awarding distribution grid-connected solar capacity paired with four hour duration energy storage at a clearing price of 17.45 Shekel cents per kilowatt-hour (US\$0.0544/kWh). A total of 55 bids were received, from 10 companies, totalling.

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. From ESS News Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's.

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's energy transition.

An auction for solar-plus-storage in Israel has awarded contracts for 609MW of solar PV alongside 2.4GWh of energy storage. The auction, held by the country's Electricity Authority at the end of last year, sought distribution grid-connected solar capacity paired with four hour duration energy.

The government has announced plans for Israel's first stand-alone energy-storage facility, consistent with the aims underpinning a revised draft climate bill (legally enshrining targets for carbon-free power generation). We expect renewables capacity to expand rapidly in 2023-27, as the government.
