

# **State grid pumped hydropower storage company**

## Overview

---

After testing the last units in its Fengning pumped storage hydropower station, State Grid now operates the largest such facility on the planet. It has 3.6 GW in generation capacity and consists of 12 units. Who owns Fengning pumped storage power station?

Image courtesy of State Grid Corporation of China China has completed the Fengning Pumped Storage Power Station in Hebei province, now the largest facility of its kind globally. The plant, which has a total installed capacity of 3.6GW, is operated by the State Grid Corporation of China (SGCC).

What is the world's biggest pumped storage power station?

The 3.6GW Fengning pumped storage power station in the Hebei Province of China is the world's biggest pumped-storage hydroelectric power project.

What is pumped storage hydropower (PSH)?

NREL experts are developing tools and partnering with industry to unlock the full potential of pumped storage hydropower (PSH)—a form of hydropower used to generate electricity, store energy, and provide grid services. Image from IKM 3D.

How does a pumped storage hydropower plant work?

Image from IKM 3D. Pumped storage hydropower facilities rely on two reservoirs at different elevations to store and generate energy. When other power plants generate more electricity than the grid needs, a PSH plant can use that power to pump water into the upper reservoir.

Where is Fengning pumped storage power station located?

The Fengning Pumped Storage Power Station. Image: State Grid Corp of China The State Grid Corporation of China, which is China's largest state-owned grid operator and power utility, has commissioned, last week, the 3.6GW Fengning Pumped Storage Power Station, a pumped-storage hydroelectric power station

located in Hebei province.

Where is Fengning pumped storage hydropower plant located?

[Photo/Xinhua] SHIJIAZHUANG, Dec. 31 -- The Fengning pumped storage hydropower plant, the largest of its kind globally, has commenced full operation in the city of Chengde, north China's Hebei Province.

## State grid pumped hydropower storage company
