

# **Street light energy delivers its first central asian energy storage project**

## Overview

---

Recently, 101 special street lamps on Shangxiang Road, Chatang Road and other streets in Shangcheng District were lit up, announcing that the first pilot project of mass transformation of LED energy storage street lamps in China was officially launched in.

Recently, 101 special street lamps on Shangxiang Road, Chatang Road and other streets in Shangcheng District were lit up, announcing that the first pilot project of mass transformation of LED energy storage street lamps in China was officially launched in.

Sungrow in partnership with China Energy Engineering Corporation (CEEC), are proud to announce the successful commissioning of a groundbreaking Lochin 150MW/300MWh energy storage project in Andijan Region, Uzbekistan. Installed with Sungrow's cutting-edge liquid-cooled ESS PowerTitan 2.0, this.

As the latest outcome of China-Kazakhstan green energy cooperation under the Belt and Road Initiative (BRI), the project is managed by a local energy investment company under China's State Power Investment Corporation. It supplies 843 million kilowatt-hours of clean electricity annually, saving.

The European Bank for Reconstruction and Development (EBRD) is contributing to Uzbekistan's objective of developing up to 25 GW of solar and wind capacity by 2030, by organising a facility of up to US\$ 229.4 million for the development, design, construction and operation of a 500 MWh battery.

The Saudi Arabian developer has reached financial close for the Tashkent Riverside project in Uzbekistan, which includes a 200 MW solar plant and a 500 MWh battery energy storage system (BESS). From pv magazine ESS News site Saudi-listed ACWA Power has announced the completion of the dry financial.

Sungrow, the global leading PV inverter and energy storage system (ESS) provider, in partnership with China Energy Engineering Corporation (CEEC), are proud to announce the successful commissioning of a groundbreaking Lochin 150MW/300MWh energy storage project in Andijan Region, Uzbekistan.

China has connected its first large-scale, grid-connected flywheel energy storage system to the power grid in Changzhi, Shanxi Province. The Dinglun Flywheel Energy Storage Power Station, with a capacity of 30 MW, is now the world's largest flywheel energy storage project which is operational.
