

Successful bid price of NMC battery storage project in Portugal 2030

Overview

The company quietly expanded its Portuguese budget to €600 M, carving out €150 M for 100 MW of lithium-ion storage that will sit beside nine new solar parks from Viana do Castelo to Évora. How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

How much battery capacity will Portugal have by 2030?

Similarly, the draft update of Portugal's NECP aims for 1 GW of installed battery capacity by 2030. The emphasis on batteries is particularly striking. Spain's target for battery storage exceeds 9 GW by 2030.

How many MW of energy storage will be produced in Portugal?

Energy storage in Portugal and Spain Over the next three years, it is intended to produce 900 MW of storage-enabled renewable energy across Spain Portugal. Close Menu. LinkedIn X (Twitter) Facebook. its initial investment in renewable energy project development while also broadening its portfolio and placing.

How much battery capacity will Spain have by 2030?

In the latest update of the Spanish National Energy and Climate Plan (NECP), storage capacity is projected to reach 9.5 GW from pumped hydro and 9.4 GW from batteries, alongside an additional 3.6 GW from solar thermal power plants. Similarly, the draft update of Portugal's NECP aims for 1 GW of installed battery capacity by 2030.

What is the lowest bid for a solar project?

The lowest bid falls below the previous solar industry record tariff of US\$0.0135/kWh set by the Al Dhafra project in Abu Dhabi in April. It also

comes in around 25% lower than the lowest bid in Portugal's first PV tender last year, which was €14.76/MWh and at the time itself a record.

Successful bid price of NMC battery storage project in Portugal 203

[Analyzing the Growth and Challenges of NMC Batteries](#)

Explore the NMC battery future, addressing supply chain, sustainability, and market challenges while uncovering growth opportunities by 2030.

[Portugal s solar and storage auction](#)

Portugal's recent PV auction marks a new era of battery storage for the country, says UK consultancy Everoze. It notes that the auction was so competitive that the winners had to cut ...

LFP vs NMC: Which is Better for Stationary Battery Energy Storage

Discover the key differences between LFP and NMC lithium-ion batteries in stationary energy storage systems. Learn which chemistry offers better safety, lifecycle value, ...

Cost Projections for Utility-Scale Battery Storage: 2023 ...

Figure ES-2 shows the overall capital cost for a 4-hour battery system based on those projections, with storage costs of \$245/kWh,

\$326/kWh, and \$403/kWh in 2030 and \$159/kWh, \$226/kWh, ...
