

Successful bid price of Solar Panel project in Azerbaijan 2026

Overview

China's Huantai Energy Co., Ltd. has secured a contract to build 100 MW of solar in eastern Azerbaijan, after submitting the lowest bid of \$0.0354/kWh in the country's first renewables auction.

China's Huantai Energy Co., Ltd. has secured a contract to build 100 MW of solar in eastern Azerbaijan, after submitting the lowest bid of \$0.0354/kWh in the country's first renewables auction.

Documents have been signed within COP29 between SOCAR Green LLC, the UAE Masdar company, the European Bank for Reconstruction and Development (EBRD), the Asian Development Bank (ADB), and the Asian Infrastructure Investment Bank (AIIB) for the financing of two solar energy projects in Azerbaijan.

China's Huantai Energy Co., Ltd. has secured a contract to build 100 MW of solar in eastern Azerbaijan, after submitting the lowest bid of \$0.0354/kWh in the country's first renewables auction. Azerbaijan's Ministry of Energy has concluded its first renewables auction by awarding a 100 MW solar.

The result was announced at the COP29 climate summit in Baku. Universal International proposed the lowest bid of USD 0.0354 (EUR 0.0335) per kWh. The project is scheduled to be commissioned in 2027. "This auction represents a major milestone in Azerbaijan's renewable energy sector. The selection of

The Ministry of Energy of Azerbaijan, with the support of the European Bank for Reconstruction and Development (EBRD), has announced the country's first renewable energy auction for a 100 megawatt solar power plant project in Garadagh. The public call for applications is accessible on the.

These two projects, the 445MW Bilasuvar and 315MW Banka PV plants in Azerbaijan, are of great significance in promoting the development of renewable energy in Azerbaijan and optimising its energy structure, and mark CEEC's debut in providing EPC services for large-scale PV power projects in.

The total cost of the projects, the 445 MW Bilasuvar Solar Power Plant and the

315 MW Neftchala Solar Power Plant, financed by EBRD, ADB, and AIIB, is expected to be \$670 million. The power plants, planned to be commissioned in 2027, are projected to generate more than 1.7 billion kWh of green.
