Tunisia has advanced its renewable energy goals by awarding contracts for four solar projects totaling 500 MW as part of its 1.7 GW solar project tender. These projects — including a 198 MW installation and three 100 MW solar farms — will be developed by Qair International, Scatec ASA, and Volitalia.

The energy ministry recently approved four solar projects under the first phase of another 1.7 GW solar tender, with the lowest price awarded at TND 98.8 (\$0.03076)/kWh. Tunisia is supporting utility-scale solar development through a series of tenders, including the latest launched in January 2023.

Tunisia has signed contracts for four photovoltaic projects, totaling 500 MW, as part of the initial phase of its 1.7 GW tender. Set to be operational by 2027, these projects aim to generate 1 TWh annually, contributing around 5% of the country's electricity supply. The winning bids include three.

Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of 500 MW. France-based Qair International will build a 100 MW facility in the Kasr region of Gafsa province and a 200 MW project in the Al-Khabna region of Sidi.
