

Successful bid price of backup power battery project in Ethiopia 2025

Overview

How much electricity does Ethiopia produce in 2040?

The share of solar in electricity generation reaches 17% in 2040. Ethiopia's net electricity exports until 2036 will primarily be driven by large-scale hydropower investments. However, net import of electricity is expected from 2038, as the pace of demand growth in Ethiopia exceeds that of supply, in the least-cost development. See Figure 6.4.

Why are energy infrastructure projects not working in Ethiopia?

Internal national security concerns continue to affect energy infrastructure projects. Conflicts in Sudan, South Sudan, Yemen, and Somalia are delaying Ethiopia's ability to strengthen energy cooperation with neighbouring countries and export electricity.

How much does electricity cost in Ethiopia?

Such a mechanism is in line with the tariff guidelines and can be linked to or combined with the four-year tariff adjustment plan. Hydropower costs range from 3-5 cents per kWh, and wind and solar costs are between 5-7 cents per kWh. These cost structures align with Ethiopia's export tariffs to Kenya, which are priced at USD 6.5 cents per kWh.

How important is electricity access to Economic development in Ethiopia?

Expanding electricity access is fundamental to economic development. While the current distribution grid covers only 25% of Ethiopia's land area, 68% of the population resides less than 5 km from the grid. This highlights the potential to triple the number of household connections within the footprint of the existing grid.

Why is energy consumption rising in Ethiopia?

In 2022, imported fossil fuels covered 11% of final energy consumption, up from 7% in 2011. The transportation sector is the primary driver of this rise,

with demand more than doubling in the past decade. Ethiopia also imports more than half of its coal demand, with import costs reaching \$300 million annually.

Successful bid price of backup power battery project in Ethiopia 2025

Ethiopia: SME Finance Project

Specific Procurement Notice Invitation to Bid
Country: Federal Democratic Republic of Ethiopia
Name of Project: Small and Medium Enterprises
Finance Project Contract Title: Procurement ...

[SEC receives Bids for 1,000 MW BESS projects](#)

Earlier, during January 2025, SEC awards the contracts for Battery Energy Storage Systems (BESS) having Combined Capacity of 2,500 MW/10,000 MWh, across Saudi ...

Ethiopia Construction Tenders
