

# Successful bid price of backup power battery project in Netherlands 2026

## Overview

---

Being developed at a cost of €85 million, the Antares BESS project will serve both locals and other bigger industry players. A bigger industry player joining the project is Vattenfall.

Being developed at a cost of €85 million, the Antares BESS project will serve both locals and other bigger industry players. A bigger industry player joining the project is Vattenfall.

The Netherlands offers attractive revenue potential for Battery Energy Storage System (BESS) projects, thanks to a growing share of cheap renewable power sources combined with expensive gas-powered plants, resulting in relatively high price volatility on the electricity markets. Additional income.

Explores the Dutch power market and status of BESS amid the recent opening of PICASSO, with insights from local asset developer S4 Energy. This article examines the structure of the Dutch energy market, focusing on renewables and BESS (battery energy storage systems) and identifying opportunities.

The imbalance price, as determined by TenneT, the Dutch transmission system operator, is usually based on the highest activated aFRR bid, incentivizing Balance Responsible Parties (BRPs) to help maintain system balance. BESS operators can focus on the passive imbalance market, leveraging its.

The report explores trends and forecasts across residential, commercial & industrial (C&I), and utility-scale battery segments, offering deep insights into Europe's energy storage landscape. With record growth in 2024 and new projections through 2029, the study highlights key market drivers.

A 100 MW / 200 MWh battery energy storage system in Waddinxveen, capable to power 50% of the city of The Hague, is set to go live mid 2026 and has a critical role in stabilizing the Dutch grid and accelerating the transition to renewable energy. ING provides the largest part of the funding with.

Dutch developer Begro has kicked off a first round of bidding for a 400 MW /

1.6 GWh-plus battery storage portfolio comprising three projects located across the Netherlands. The group, which also develops onshore wind farms and is backed by the De Groot family, began circulating teasers on the.
