

# **Successful bid price of battery storage container project in Belgium 2030**

## Overview

---

In the 2024 Y-1 auction, one battery project secured a one-year contract, competing mainly against gas-fired OCGTs and CCGTs. Elia publishes the auction rules — including the derating factors, the price cap, and the volumes — in Q1 of the auction year.

In the 2024 Y-1 auction, one battery project secured a one-year contract, competing mainly against gas-fired OCGTs and CCGTs. Elia publishes the auction rules — including the derating factors, the price cap, and the volumes — in Q1 of the auction year.

Similar to last year, battery energy storage systems (BESS) made up almost all new-build capacity selected in recent Capacity Remuneration Mechanism (CRM) auctions in Belgium. Simon De Clercq, senior research associate at Aurora Energy Research, tells ESS News that there is even more room for BESS.

LCP Delta provided a comprehensive competitive analysis of the Belgium battery storage market to help inform an investment decision on a project they are developing. Our client is one of the largest electricity producer and energy supplier in Europe, is seeking to develop a battery storage project.

Auction in T-1 and T-4 up to 2024, plus T-2 as from 2025. Technology agnostic (derating factor). Volume fixed every year by Belgian Authorities based on TSO recommendation. Payback mechanism in case of DA above a fixed ceiling price. For BESS, CRM represent between 10 to 20% of the revenue. Complex.

I4B – The Belgian Infrastructure Fund has invested EUR 30 million (USD 34.6m) in a 600-MWh battery energy storage system (BESS) project in Belgium, one of the country's largest to date. Energy storage battery. Photo by Anna Vasileva The project is developed in Vise, Liege province, in partnership.

New-build battery storage projects from three developers totalling 357MW were among resources awarded contracts in Belgium's latest capacity market auction. Belgian grid operator Elia announced the results of its Capacity

Remuneration Mechanism (CRM) auction just before the end of October. The.

Paris, May 15, 2023 – TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. A first flagship energy storage project in Belgium.
