

Successful bid price of battery storage container project in Ireland 2025

Overview

This guide breaks down what you can expect to pay in 2025, based on quotes from real Irish installers — including before and after SEAI grant pricing. We'll also cover what influences cost, how long payback takes, and the most popular battery brands in Ireland right now. Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How much battery storage does Ireland have?

There is just under a gigawatt of battery storage on the grid operating today. In addition to the almost 1 GW of BESS, Ireland also has 292 MW of pumped hydro at the Turlough Hill site in County Wicklow, which has been operating since the 1970s.

What are the key market trends for battery storage?

It covers key market trends, with a particular focus on the shift toward utility-scale storage, the continuing growth of residential and commercial installations, and the evolving role of battery storage in supporting Europe's clean energy goals.
