

# **Successful bid price of business energy storage project in Germany 2025**

## Overview

---

The prices for successful bids ranged between €0.0674/kWh (US\$0.073/kWh) and €0.0745/kWh (US\$0.0745/kWh) and the average volume-weighted price was €0.0709/kWh, which ended much lower than the price ceiling of €0.0918/kWh and the previous innovation auction's average of €0.0833/kWh.

The prices for successful bids ranged between €0.0674/kWh (US\$0.073/kWh) and €0.0745/kWh (US\$0.0745/kWh) and the average volume-weighted price was €0.0709/kWh, which ended much lower than the price ceiling of €0.0918/kWh and the previous innovation auction's average of €0.0833/kWh.

The prices for successful bids ranged between €0.0674/kWh (US\$0.073/kWh) and €0.0745/kWh (US\$0.0745/kWh) and the average volume-weighted price was €0.0709/kWh, which ended much lower than the price ceiling of €0.0918/kWh and the previous innovation auction's average of €0.0833/kWh. "The significant.

The German government's infrastructure authority, Bundesnetzagentur has announced that 43 bids for solar and storage projects - with a combined volume of 512MW- have been successful in its recent innovation auction. The prices of the successful bids ranged from 6.78 ct/kWh to 9.17 ct/kWh. The.

Germany has concluded the latest round of Innovation Tender, securing 512 MW of capacity at an average price of €0.0833 (\$0.089)/kWh. Germany has concluded its latest round of Innovation Tender, with 43 solar-plus-storage projects totalling 512 MW awarded contracts. The deadline for bidding was May.

Battery energy storage systems (BESS) are experiencing a remarkable upswing in Germany - and quite rightly so. They offer one of the key need that an energy system increasingly characterised by renewable energies needs: short term Flexibility. At the same time, they are becoming a new, promising.

Germany's latest innovation tender for 583 MW of renewable energy projects was oversubscribed by 218%, with bids totaling 1,856 MW, according to data released by the federal network agency Bundesnetzagentur. Of the 154 bids

submitted, 50 were awarded contracts for a combined 587 MW of solar plus.

With a total available capacity of 583MW, the successful bids ranged in price from €0.0678/kWh to €0.0917/kWh, with an average volume-weighted price of €0.0833/kWh. This competitive pricing demonstrates the economic feasibility of solar-plus-storage projects and their contribution to sustainable.

## Successful bid price of business energy storage project in Germany
