

# **Successful bid price of flow battery system project in Argentina 2030**

## Overview

---

Contract prices settled between \$10,161 and \$12,815 per MW-month, comfortably below the reference price of \$15,000/MW-month set by CAMMESA, the market's administrator.

Contract prices settled between \$10,161 and \$12,815 per MW-month, comfortably below the reference price of \$15,000/MW-month set by CAMMESA, the market's administrator.

The Ministry of Economy of Argentina has issued a national and international open call "GBA Storage -AlmaGBA", aimed at contracting 500 MW of electric energy storage plants in critical nodes in the Metropolitan Area of Buenos Aires. The total investment is estimated at US\$500m and the battery.

Argentina's \$540 Million Bet on Battery Storage: A Blueprint for Grid Resilience?

Over 667 megawatts of energy storage capacity are headed for the Buenos Aires Metropolitan Area (AMBA), representing an investment exceeding half a billion US dollars. This isn't just about avoiding summer blackouts;

The federal energy department had announced the tender - expected to attract some US\$500mn in private sector investment - earlier this week.

Argentina has taken a decisive step toward modernising its electricity infrastructure with the conclusion of its first large-scale battery energy storage tender, awarding 667 MW of capacity —a significant 30% above the original 500 MW target. The competitive bidding round, part of the Alma-GBA.

Argentina's Energy Secretariat has issued a pivotal international call for proposals aimed at integrating 500 megawatts (MW) of battery energy storage systems (BESS) within the Metropolitan Area of Buenos Aires (AMBA). This bid aims to bolster the country's reliability of electricity supply by.

In February 2025, Argentina's Energy Secretariat, under the Ministry of Economy, initiated an international tender to integrate 500 megawatts (MW)

of battery energy storage systems (BESS) into the Metropolitan Area of Buenos Aires (AMBA). This ambitious project, estimated at \$500 million, aims to.

## Successful bid price of flow battery system project in Argentina 2030
