

Successful bid price of lead acid battery storage project in China 2025

Overview

Narada Power Source has won the bid for China Tower Corporation's 2025 centralized tender for valve-regulated sealed lead-acid (VRLA) battery products, with a contract value of approximately 330 million RMB. Narada Power Source has been collaborating with China Tower for many years.

Narada Power Source has won the bid for China Tower Corporation's 2025 centralized tender for valve-regulated sealed lead-acid (VRLA) battery products, with a contract value of approximately 330 million RMB. Narada Power Source has been collaborating with China Tower for many years.

The price for big battery storage modules have hit a record low in the latest giant auction in China, where more than 70 bidders competed for 25 gigawatt hours of capacity in what is being described as a "watershed moment" for the industry. Battery storage has already emerged as the most compelling.

Narada Power Source has won the bid for China Tower Corporation's 2025 centralized tender for valve-regulated sealed lead-acid (VRLA) battery products, with a contract value of approximately 330 million RMB. Narada Power Source has been collaborating with China Tower for many years. Narada Power.

State-owned EPC firm China Power Construction Group (Power China) recently concluded a 16GWh BESS supply tender, which resulted in extremely low prices amidst a squeezing of market share and increased buying power from state-owned companies, an S&P analyst told Energy-Storage.news. The tender for.

it in rechargeable batteries for use at a later date. When energy is needed, it is released from the BESS to power demand to lessen any he integration of demand- and supply-side management. An augmented focus on energy storage development will substantially lower the curtailment rate of renewable.

The procurement exercise has attracted 67 battery energy storage companies but only six have emerged as winners. The average bid stood at CNY

0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy.

Recently, Sacred Sun won the high-power battery package for China Mobile's centralized procurement of lead-acid battery products from 2023 to 2025 (the first batch) project with the first place, with a winning share of 21.05% and a winning amount of nearly 13.9 million USD.
