

Successful bid price of mobile ESS unit project in Poland 2030

Overview

The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE - an electricity transmission system operator in Poland and the sole operator of the country's high-voltage transmission lines, 100 percent owned by the State Treasury) on December 12, 2024, ended in the seventh Dutch auction.

The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE - an electricity transmission system operator in Poland and the sole operator of the country's high-voltage transmission lines, 100 percent owned by the State Treasury) on December 12, 2024, ended in the seventh Dutch auction.

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased. The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE - an electricity.

Only 6 projects with a total capacity of around 1.5GW, have agreed on the proposed terms with the TSO, with an expected connection date post-2027. These are mainly standalone projects including the massive Zarnowiec project developed by PGE in Pomerania Province. The list includes 9 projects.

[BYD Secures Another International ESS Order] On March 3, BYD ESS officially signed a cooperation agreement with Greenvolt Power, a subsidiary of the Portuguese biomass energy producer Greenvolt Group, to supply energy storage systems for two major ESS projects in Poland. These projects are of.

The much anticipated capacity market auction for 2029 conducted by Polskie Sieci Elektroenergetyczne (PSE) ended in the seventh round with a price of PLN 264.90/kW/year (\$65/kW/year). Such a clearing price rendered gas projects uneconomical and left significant room for battery storage systems to.

Polish capacity market rates in 2021 and 2022 auctions have exceeded 400.000 PLN/MW/year making Polish market to be the most attractive in Europe. Inflation indexed government guarantees for up to 17 years give solid footing to make energy storage a lucrative business in Poland. Our company is

able.

July 28, 2022: Polish state energy firm PGE has received a preliminary licence from regulators to build a 200MW battery storage facility in the country as part of a commercial hybrid energy storage (CHEST) project, the company said on July 20. PGE did not disclose investment costs or the proposed.
