

# Successful bid price of on grid solar storage project in Oman 2025

## Overview

---

Nama Water and Energy Procurement revealed the prequalified companies for the project, which is expected to cost approximately OMR 155 million and play a crucial role in meeting Oman's growing electricity demands.

Nama Water and Energy Procurement revealed the prequalified companies for the project, which is expected to cost approximately OMR 155 million and play a crucial role in meeting Oman's growing electricity demands.

Oman's Nama Power and Water Procurement Co. received four bids from companies and consortia looking to develop the 500 MW solar project in Ibri, northwestern Oman. Image: Ahmed Nasser, Unsplash. Oman's Nama Power and Water Procurement Co. (PWP) has announced the companies and consortia that.

Nama Power & Water Procurement, Oman announces the list of bidders who submitted bids for the development of Ibri III Solar IPP, in Ibri in Al Dhahirah Governorate. The company has announced in January 2024 the request for qualification tender with the project capacity of 500 MW and estimated.

Oman's Nama Power and Water Procurement Company has revealed the list of companies that have officially submitted bids for the 500 MW Ibri III Solar Project, to be located in Al Dhahirah Governorate. The 4 bidders listed include the consortium of Abu Dhabi Future Energy Company (Masdar), Korea.

Oman's Nama Power and Water Procurement Company (PWP) has announced that four energy companies are in the final stage of bidding for the 500-megawatt (MW) Ibri III Solar Independent Power Project (IPP). The shortlisted companies are Masdar from Abu Dhabi, Acwa Power from Saudi Arabia, EDF.

PWP is a regulated entity with obligations to procurement capacity and output via contracts, to meet demand. Existing: • 9,716 MW generation capacity (13 plants). 1,336,000 m<sup>3</sup>/d desalination capacity (10 plants). Under construction: 600,000 m<sup>3</sup>/d. reach 30% generation by 2030 and 35-39% by 2040. A. How much will Oman's power sector invest in the next six years?

Taken together with parallel plans for the implementation of a raft of Wind IPPs and combined cycle gas turbine (CCGT) power projects, total investment in Oman's power sector is set to balloon to well over \$5 billion over the next six years through to 2030.

Why did the Sultanate of Oman buy a solar project?

The Company earlier notified that, the procurement of this solar project is part of the Sultanate of Oman's government policy to diversify energy resources to meet the growing demand for electricity.

Which energy companies are preparing a bid for a solar power plant?

A consortium of Abu Dhabi Future Energy Company (Masdar), Korea Midland Power (KOMIPO) and Al Khadra Partners makes up the first listed bid, while a partnership between ACWA Power and TotalEnergies Renewables forms the second bid.

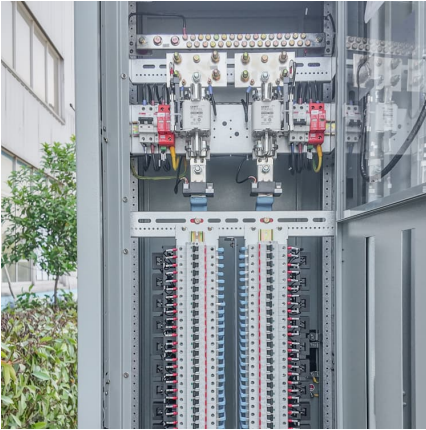

How much does the IBRI III solar project cost?

The Ibri III solar project, with an estimated project cost of OMR 155 million (\$402.6 million), has a scheduled completion date of the first quarter of 2027. It will be located alongside the existing 500 MW Ibri II solar project, which was inaugurated in January 2022 after a 13-month construction period.
