

Successful bid price of rooftop solar storage project in India 2025

Overview

India. Specifically, recent auction results for storage have been record-breaking: the latest tender for standalone battery energy storage systems (BESS) with two hours' duration in April 2025 saw a winning bid of 2.8-2.85 lacs/MW/month, without any subsidy like the Viability Gap.

India. Specifically, recent auction results for storage have been record-breaking: the latest tender for standalone battery energy storage systems (BESS) with two hours' duration in April 2025 saw a winning bid of 2.8-2.85 lacs/MW/month, without any subsidy like the Viability Gap.

ation. Recent energy storage auctions in India reveal record-low prices, with unsubsidized standalone battery storage bids at 2.8 lacs/MW/month and solar+storage bids at 3.1–3.5 I R/kWh. Our analysis, based on implied solar and storage costs from these bids and bottom-up global cost estimates.

NHPC has invited bids for setting up a cumulative 24.22 MW rooftop solar projects on 245 government buildings in 25 states/union territories under the renewable energy service company model. The last date to submit bids is March 3, 2025. Bids will be opened on March 7. Bidders must submit an.

The CFO of a textile company in Rajasthan was planning a 1000 kWp rooftop solar CAPEX project. He presented a ₹3.32 crore investment proposal to the board, showing that it could deliver ₹3-4/kWh savings and a strong internal rate of return (IRR). The board liked the numbers but wanted more clarity.

Part 1 deals with an overview of residential rooftop solar installation (January 2025) across the country, and Part 2 will analyse the uptake of rooftop solars. I. Introduction India has significant Solar Energy Potential (SEP) with about 5000 trillion units per year energy incident over India's.

As of June 2025, India installed rooftop solar capacity stood at 16.5 GW. Gujarat, Maharashtra, UP, Kerala, and Rajasthan led the way in Q2 2025, collectively accounting for 64% of the total installations. India's rooftop solar capacity surged 158 per cent in the first half of 2025, adding 2.8.

Request for Selection (RfS) of Solar Power Developers for setting up of 1750 kW Grid-Connected Rooftop Solar PV Projects under RESCO Mode through Tariff-based Competitive Bidding. The bid due date is 28-Feb-2025. Tender ID: 2025_SECI_786517_1. Location: New Delhi Delhi Estimated Value (Rs. Cr): NA. Does India have a rooftop solar system?

This is a two part article. Part 1 deals with an overview of residential rooftop solar installation (January 2025) across the country, and Part 2 will analyse the uptake of rooftop solar. I. Introduction India has significant Solar Energy Potential (SEP) with about 5000 trillion units per year energy incident over India's land area.

What is the future of rooftop solar in India?

Rooftop solar, particularly in the Commercial & Industrial (C&I) segment, is expected to play a pivotal role in this growth. As of FY25, India's rooftop solar capacity stood at 17.02 GW, and increasing awareness among businesses about reducing operating costs and meeting sustainability targets is fuelling adoption.

How a rooftop solar project is boosting the value chain?

The scheme not only supports low and middle-income households by reducing their electricity bills but also aims to create nearly 17 lakh jobs, boosting the solar value chain. Recently, rooftop solar initiative has achieved a historic milestone with 10 lakh installations as of 10th March 2025.

Which state has the most rooftop solar installations in India?

Gujarat and Maharashtra together account for nearly 41% and 23% share, respectively, in the total installed capacity for rooftop solar. The Commercial & Industrial (C&I) segment is expected to play a pivotal role in the growing rooftop solar installations across India.

What is the projected growth rate of rooftop solar market?

The market is expected to grow at a CAGR of 33% from FY25 to FY27, with the total installed rooftop capacity projected to grow from 17 GW in FY25 to ~30 GW by FY27. Gujarat and Maharashtra together account for nearly 41% and 23% share, respectively, in the total installed capacity for rooftop solar.

How much does solar cost in India?

ble 1. These bids include not only storage costs but solar costs as well; the solar Levelized Cost of Electricity (LCOE) is likely around 2.3-2.5 INR/kWh, reflecting the latest solar costs in India, comprising the majority of the winnin

Successful bid price of rooftop solar storage project in India 2025

Development of Solar Parks and Ultra Mega Solar Power Projects

Under the scheme, it was proposed to set up at least 25 Solar Parks and Ultra Mega Solar Power Projects targeting 20,000 MW of solar power installed capacity within a span of 5 years starting ...

Tata Power Solar Rooftop Marks Major Milestone with 1.5 lakh+ Rooftop

Tata Power Solar Rooftop Marks Major Milestone with 1.5 lakh+ Rooftop Solar Installations, 3 GW Capacity; Expands Footprint across 700+ Cities
20th March, 2025
