

# Successful bid price of wall mounted battery project in Germany 2025

## Overview

---

How much energy will Germany install in 2023?

Germany added 6.1 GWh of installations in 2023, and for 2024, new installations are projected to grow by 17%, reaching approximately 7.1 GWh. Additionally, Germany led Europe in residential energy storage, installing 555,000 units (5.0 GWh) in 2023: a 166% YoY growth—accounting for 52.6% of Europe's new installations.

What is the market share of Bess batteries in 2023?

With a 72.3% market share, lithium-ion batteries dominate grid scale BESS applications and are set to remain the top choice for future needs. Germany led the European BESS market in 2023, with a 34% share, followed by Italy at 22% and the UK at 15%.

What are the key market trends for battery storage?

It covers key market trends, with a particular focus on the shift toward utility-scale storage, the continuing growth of residential and commercial installations, and the evolving role of battery storage in supporting Europe's clean energy goals.

Can Germany increase its share of renewables without affecting grid prices?

With the world's highest cost of electricity, Germany faces the unenviable task of increasing the share of renewables without significantly impacting its grid prices anymore.

What if the volumes up for auction in 2025 would not be exhausted?

If this happened, there would be a risk that the volumes up for auction in 2025 would not be exhausted. The price ceilings for the auctions to be held in 2025 for biomass and biomethane installations will be reviewed in good time before the auctions.

What are the key challenges facing battery storage?

It also outlines the key challenges facing the sector, including underdeveloped frameworks and barriers to investment. The study concludes with five policy recommendations designed to accelerate battery storage deployment and ensure energy systems are prepared to integrate high levels of renewable energy.

## Successful bid price of wall mounted battery project in Germany 20
