

# Tesla battery for home cost

## Overview

---

How much do Tesla Powerwall batteries cost?

Additional Tesla Powerwalls cost less per unit as you add more batteries to your order. For example, an order of five Tesla Powerwall batteries costs \$8,100 per unit or \$40,500 with the bundle discount.

How much does a home battery cost?

One of the most popular home battery options is the Tesla Powerwall, a sleek lithium-ion battery that holds 13.5 kilowatt-hours (kWh) of energy. The Tesla Powerwall 3 costs about \$15,400 before incentives and taxes are considered. At \$1,140 per kWh of storage, the Powerwall is one of the most affordable home battery solutions available.

How much does a Powerwall battery cost?

By home battery standards, Powerwall batteries are on the cheaper side. Tesla's Powerwall 3 costs about \$1,065 per kWh of storage, according to a recent report from EnergySage. The Powerwall 3 is a 13.5 kWh battery, so expect to spend about \$14,400 -- without incentives. But this doesn't include the cost to install the battery.

Do you need a Tesla Powerwall battery?

A single Tesla Powerwall battery may be enough to keep your home operational during a power outage—or at least the necessities, such as the lights and outlets. To power larger appliances and store more excess solar energy, however, you'll likely need additional batteries.

Is Tesla Powerwall 3 a good battery?

Tesla has finally released its much anticipated Powerwall 3 and the latest version of its home battery doesn't disappoint. The Tesla Powerwall 3 is a big step up from the Powerwall 2, boasting some key improvements while still maintaining a reasonable price point.

Can you buy a PowerWall with a Tesla Solar System?

You can purchase a Powerwall in combination with a Tesla solar system or Tesla solar roof. You can buy a maximum of 10 Powerwalls per purchase, and the cost per unit decreases when you purchase more batteries. Most homes need only one or two batteries to meet their basic energy storage needs.
