

Tesla home battery cost

Overview

How much does a Tesla Powerwall battery cost?

Based on a secret-shopping quote we acquired on Tesla's website for a home near Austin, Texas, a single Tesla Powerwall 3 battery costs \$16,779. Installation costs vary depending on your installer, but our 2025 survey of 1,000 recent home solar customers revealed that the average price to install a Tesla Powerwall is \$7,466.

Is Tesla Powerwall a good battery?

The Tesla Powerwall isn't the cheapest battery on the market, but it offers more storage and smart features for the price. While some competitors cost less upfront, they often have lower storage capacity or weaker backup capabilities. On a cost-per-kWh basis, the Powerwall is one of the best values available.

How much does a home battery cost?

One of the most popular home battery options is the Tesla Powerwall, a sleek lithium-ion battery that holds 13.5 kilowatt-hours (kWh) of energy. The Tesla Powerwall 3 costs about \$15,400 before incentives and taxes are considered. At \$1,140 per kWh of storage, the Powerwall is one of the most affordable home battery solutions available.

Why should you buy a Tesla home battery?

Tesla is known for its electric vehicles, but it also creates other renewable energy systems, including monocrystalline solar panels, solar inverters, and solar batteries. The Tesla home battery can help reduce your dependence on the traditional electricity grid and give you coverage for power outages.

How much does a Powerwall battery cost?

By home battery standards, Powerwall batteries are on the cheaper side. Tesla's Powerwall 3 costs about \$1,065 per kWh of storage. according to a

recent report from EnergySage. The Powerwall 3 is a 13.5 kWh battery, so expect to spend about \$14,400 -- without incentives. But this doesn't include the cost to install the battery.

Is a Tesla battery right for You?

Although it is not a prerequisite to owning a home solar panel system, the Tesla battery may be right for you if: You have solar panels. Once your solar panels have generated enough energy to power your home, your solar battery allows you to store any extra electricity.
