

# Total investment cost of home battery pack project in Argentina

## Overview

---

The total investment is estimated at US\$500m and the battery projects are due to be developed between 12 and 18 months.

The total investment is estimated at US\$500m and the battery projects are due to be developed between 12 and 18 months.

Over 667 megawatts of energy storage capacity are headed for the Buenos Aires Metropolitan Area (AMBA), representing an investment exceeding half a billion US dollars. This isn't just about avoiding summer blackouts; it's a pivotal moment for Argentina's energy future, and a potential model for.

The Ministry of Economy of Argentina has issued a national and international open call "GBA Storage -AlmaGBA", aimed at contracting 500 MW of electric energy storage plants in critical nodes in the Metropolitan Area of Buenos Aires. The total investment is estimated at US\$500m and the battery.

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. Argentina's Wholesale Electricity Market Administration Company (CAMMESA) has published a.

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 and 18 months. From pv magazine Latam The Argentine Energy Secretariat, which is part.

Fifteen companies submitted 27 proposals totaling 1,347 MW of storage capacity, far surpassing the government's original goal of 500 MW. The bids reflect an estimated \$1 billion in investment, a clear indicator that Argentina's energy market is ripe for transformation. At the core of this.

In February 2025, Argentina's Energy Secretariat, under the Ministry of Economy, initiated an international tender to integrate 500 megawatts (MW) of battery energy storage systems (BESS) into the Metropolitan Area of

Buenos Aires (AMBA). This ambitious project, estimated at \$500 million, aims to.
