

Total investment cost of on grid solar storage project in Egypt

Overview

The African Development Bank, European Bank for Development and Reconstruction (EBRD), and British International Investment (BII) are investing \$479.1 million to develop a major solar and battery storage facility in Egypt.

The African Development Bank, European Bank for Development and Reconstruction (EBRD), and British International Investment (BII) are investing \$479.1 million to develop a major solar and battery storage facility in Egypt.

British International Investment (BII), the UK's development finance institution and impact investor, the African Development Bank (AfDB) and European Bank for Reconstruction and Development (EBRD) are providing a total of US\$ 479.1 million to Obelisk Solar Power SAE, a special-purpose vehicle.

The project will deliver a 1.1 GW solar photovoltaic (PV) plant and a 200 MWh battery energy storage system (BESS) in the Nagaa Hammadi region of Upper Egypt. Total investment costs are estimated at US\$590 million, with blended finance covering approximately 80 per cent of the total capital.

The African Development Bank, European Bank for Development and Reconstruction (EBRD), and British International Investment (BII) are investing \$479.1 million to develop a major solar and battery storage facility in Egypt. This project, led by Obelisk Solar Power SAE and Scatec ASA, will integrate.

The European Bank for Reconstruction and Development (EBRD) is supporting Egypt 's renewable-energy sector by providing a US\$ 30 million equity bridge to Obelisk Solar Power, a special purpose vehicle owned by Scatec ASA, a leading global renewable energy developer and a key strategic client for.

The global push for clean energy has found a significant new champion in Egypt, with the announcement of a landmark US\$479.1 million loan for the nation's first integrated solar and battery storage plant. This ambitious project, spearheaded by Obelisk Solar Power SAE, a special purpose vehicle.

African Development Bank Group's board of directors approved a financing package of up to \$184.1 million to support the development of the Obelisk

1-GW solar photovoltaic project and 200MWh battery energy storage system (BESS) in Egypt. This is expected to be Africa's one of the largest solar power.

Total investment cost of on grid solar storage project in Egypt

EBRD backs Egypt's first solar and battery storage project

The project will support the green energy transition in Egypt while helping keep the grid stable and reliable in the face of growing electricity demand. It is being developed ...
