

Total investment cost of solar plus storage project in Zambia

Overview

The project will require US\$65 million of investment and will assist in mitigating power shortages in the country, the Ministry of Energy said.

The project will require US\$65 million of investment and will assist in mitigating power shortages in the country, the Ministry of Energy said.

The project will require US\$65 million of investment and will assist in mitigating power shortages in the country, the Ministry of Energy said. GEI and YEO have set up a special purpose vehicle, Cooma Solar Power Plant Limited, to build and operate the project which will be built in the Choma.

Turkish developer YEO and Zambian sustainable energy company are constructing a 60 MW solar plant with a 20 MWh battery energy storage system in southern Zambia. Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage.

The Ministry of Energy announced that by September 2025, GEI Power and YEO aim to have a 60MWp solar PV and 20MWh BESS project operational in Zambia. This endeavour — requiring an investment of \$65 million — is anticipated to alleviate power shortages in the country. GEI and YEO have established a.

With its energy storage investment market projected to grow by 18% annually through 2028 [thanks to juicy solar potential and mining sector demands], this Southern African gem is becoming a hotspot for savvy investors. The recent 30MW solar + 60MWh storage project by China's Sany Group [1] [4].

For solar-plus-storage—the pairing of solar photovoltaic (PV) and energy storage technologies—NREL researchers study and quantify the unique economic and grid benefits reaped by distributed and utility-scale systems. Much of NREL's current energy storage research is informing solar-plus-storage.

Zambian developer GEI Power and Turkish energy technology firm YEO are

planning a 60MWp/20MWh solar-plus-storage project in Zambia, expected online by September 2025. The Ministry of Energy said the project will require US\$65 million of investment and will assist in mitigating power shortages in. Will gei power be Zambia's first solar plant with battery storage?

Turkey's YEO is partnering with Zambian sustainable energy company GEI Power to develop a 60 MW/20 MWh solar plant with battery storage in Choma district, southern Zambia. The facility has been touted as Zambia's first solar plant with battery storage.

How is solar PV deployment upscaled in Zambia?

Solar PV deployment is upscaled in Zambia through private sector involvement and support from cooperating partners. This is achieved through various initiatives, including the GET FIT program. The emission reduction potential for each scheme is detailed in Table 5.12.

How much solar power does Zambia have?

Zambia's installed solar capacity stood at 124 MW at the end of 2023, according to the International Renewable Energy Agency (IRENA). In April, Canadian developer SkyPower Global signed a 1 GW power purchase agreement with state-owned utility Zambia Electricity Supply Corp.
