

Turnkey business energy storage EPC contract price in Malaysia

Overview

The average price of EPC for energy storage projects generally falls within the range of \$1,000 to \$3,000 per installed kilowatt; this cost can fluctuate based on various factors such as project scale, technology employed, site conditions, and location-specific economic considerations. Can a foreign company provide a turnkey project in Malaysia?

As turnkey projects are neither expressly mentioned nor implied in any of the exceptions, the foreign company that intends to provide EPC works should register with the Companies Commission of Malaysia as a Registered Foreign Branch Office or establish a subsidiary Company Limited.

Who is EPC synergy Sdn Bhd?

No Job Is to Big for Us. We'll Get It Done. EPC Synergy Sdn Bhd (EPC) formerly known as Letrik Synergy Sdn Bhd was incorporated as Sendirian Berhad Company in October 14, 1996 whose intended area of business was in the Construction and Trading activities.

What is Energy Performance Contract (EPC)?

Energy Performance Contract (EPC) is a mechanism that uses market-based capital and technology to improve energy efficiency in buildings, industry, and other areas. There is a large room for development in the Energy Performance Contract market in Malaysia.

What is an EPC & how does it work?

The concept of the EPC is based on a profit-sharing agreement between the building owner and the Energy Service Company (ESCO) whereby the initial cost for the energy efficiency improvement project is borne by the ESCO.
