

# **Turnkey hybrid solar storage EPC contract price in Serbia**

## Overview

---

How much electricity can a solar power plant produce in Serbia?

“The solar power plants will be able to produce an average of 1.6 TWh to 1.7 TWh, which is equal to Serbia’s imports, at a time when electricity is quite expensive and highly sought-after in the region,” he said.

Who owns the large-scale solar and battery energy storage project?

Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by Electric Power Industry of Serbia (EPS) once completed.

Is solar a good option for Serbia?

A statement published on the Serbian government’s website says solar is the most optimal solution to quickly reach large capacities from green sources, without burdening and endangering the stability of the transmission network. Serbia currently gets more than 60% of its electricity from fossil fuels.

## Turnkey hybrid solar storage EPC contract price in Serbia
