

Turnkey solar diesel hybrid storage EPC contract price in Poland

Overview

How will Polish energy sector evolve in 2025?

Innovation in the wind power and energy storage sector is expected to increase in 2025. The “Moja Elektrownia Wiatrowa” program plays an important role in the modernization of the Polish energy sector. It supports the development of energy storage, improves energy efficiency and increases the share of RES in the country’s energy mix.

Will energy storage subsidy programs accelerate Poland's energy transition?

The development of energy storage subsidy programs in 2024-2025 has great potential. The planned activities will accelerate Poland’s energy transition, supporting the development of technologies and the creation of new jobs in the energy sector. Energy storage subsidy programs are crucial to stabilizing Poland’s electricity grid.

How do EPC contracts work in Poland?

The investment costs, in part or in full, can be repaid from the achieved and guaranteed (under the EPC contract) energy savings, through the visible difference in energy bills. The Polish guidelines for EPC contracts are assigned to public sector entities, encompassing a range of energy efficiency projects.

What are Poland's new EPC guidelines?

The new EPC guidelines offer a structured approach to improving energy efficiency, particularly in public sector projects. This move is a part of Poland’s strategic energy policy, aiming for a more sustainable and efficient energy use across the country, and reinforcing the nation’s commitment to energy efficiency and climate goals.

What are Poland's new energy performance contracting guidelines?

December 18, 2023 In June 2023, Poland’s Ministry of Climate and Environment issued a set of guidelines for Energy Performance Contracting

(EPC). The new EPC guidelines offer a structured approach to improving energy efficiency, particularly in public sector projects.

What does the EPC contract mean for Eenergy?

The EPC contract constitutes a significant milestone in Eenergy's activities in Poland, with the project being their first to reach this stage in the country. The project, located in the city of Resko in the Zachodnio-Pomorskie Municipality, will have a total installed capacity of 51MW and is due to become commercially operational by July 2023.

Turnkey solar diesel hybrid storage EPC contract price in Poland

[Engineering, Procurement, and Construction \(EPC\)](#)

Selectivity: Adjusting project bids to reduce risk exposure The balancing of risk between the customer and the EPC contractor is one of the main levers impacting competitive as-bid prices. When contract terms are not in place to address ...
