

# **Turnkey solar plus storage EPC contract price in Hungary**

## Overview

---

What is a turnkey EPC contract?

The key thing to note is that with a turnkey EPC contract, you can't get just a piece of the package. For example, if you just want to dip your toe into solar to see if it would be a good fit for your business, an EPC contract won't allow you to just purchase an energy assessment or a site survey - you have to buy the entire solar package.

Who is the best solar EPC Company in Hungary?

Solar Power Solutions Pvt Ltd is the premier solar company in Hungary. With our expertise and commitment to excellence, we have earned a reputation as one of the best solar EPC companies in the Hungary. Our comprehensive range of services includes solar installation, solar energy solutions, and manufacturing and supplying high-quality solar panels.

What is a turnkey solar system?

VeloSolar • Updated on March 13, 2023 • 8 minutes read In the solar world, Engineering Procurement and Construction (EPC) contractors typically provide a turnkey service. They deliver a ready-to-use solar system; when they're done working, all you have to do is turn the proverbial key and you're generating your own clean, renewable energy.

Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.

Why should you hire an EPC 2.0 firm?

When you hire a EPC 2.0 firm, like Velo Solar, you're getting an entire team of solar experts, including a project management team and engineering, design, construction, software, energy storage and solar system optimization

professionals. An EPC 2.0 firm acts like a project management consultancy.

Should you choose an EPC contract for a solar project?

Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project.
