

# **Turnkey wall mounted battery EPC contract price in Australia**

## Overview

---

What is an EPC contract?

Historically, EPC contracts have been the mainstay for large-scale energy projects in Australia, including BESS projects. An EPC contract is a fully integrated solution where a single contractor takes full responsibility for the engineering, procurement, and construction aspects of a project, excluding specified grid connection works.

What are the benefits of EPC Contracting in Australia?

The EPC contracting model has the advantages of relative simplicity, a single point of accountability, reduced interface risk for the developer and being preferred by Australian financiers. However, in the current market a limited number of contractors in Australia are willing to take on a traditional EPC contractor role.

Can a split contracting model reduce EPC costs in Australia?

However, in the current market a limited number of contractors in Australia are willing to take on a traditional EPC contractor role. A split contracting model opens the market to more tenderers for various packages, which may reduce reliance on a limited pool of EPC contractors and reduce overall project cost.

Why is Intec expanding its presence in Australia?

Leveraging its proven track record in delivering high-quality solar projects across Europe, INTEC is expanding its presence in Australia to meet the country's growing energy demands. This commitment is reflected in the establishment of a new office and the addition of a local workforce to support ongoing projects.

Do EPC contractors need security / deposit / advance payment?

Usually EPC Contractor must ensure its suppliers and contractors are similarly

insured. Security will be tailored to scope, risk, and payment profile for each contract, to secure the relevant supplier / contractor's performance under its contract only. Security for deposits / advance payment depends on the contract and parties.

Do EPC contracts require forex and commodity adjustments?

Some contracts will require forex and commodity adjustments. EPC contracts will have a fixed price, subject only to limited adjustments. Some contracts will require forex and commodity adjustments at financial close / notice to proceed, but no further adjustment for labour/supply costs increases or rise and fall.
