

# **Utility scale ESS project financing options in Mexico 2030**

## Overview

---

How much energy will Mexico have by 2030?

In his address to the Senate, Islas also said a total of 21.8 GW of new generation capacity will be connected to the grid in Mexico by 2030, with clean energy sources accounting for around 80%.

How can Mexico accelerate investment in energy storage?

Mexico must set a legal definition of energy storage and clear market regulations. As a late mover, Mexico can select projects with less technological uncertainty. Procurement targets accelerate the formation of a storage market in the short term. Financial incentives are necessary to accelerate investment in energy storage.

What are Mexico's energy transition goals?

1. Introduction Following the Energy Reform of 2013 and the Energy Transition Law of 2015, Mexico set a national strategy for the decarbonisation of the electricity sector and established three clean energy transition goals: 35% of the total electricity production must come from clean energy by 2024; 37.7% by 2030; and 50% by 2050 . 1.

Does Mexico have a 30% energy storage mandate?

A month after India introduced an energy storage mandate for renewable energy plants and China scrapped its own, Mexico has stepped forward with an ambitious 30% capacity requirement, alongside plans to add a further 574 MW of batteries by 2028.

Where can I find information about the energy sector in Mexico?

For more sector information, the Energy Information System (SIE) \* offers a database maintained by Mexico's energy agencies and the Ministry of Energy, responsible for national energy policy. This portal provides validated official statistics (registration required for access).\*

How will Mexico's energy reforms affect the private sector?

Islas said that the energy reforms, which went into effect earlier in March, provide a series of mechanisms for the private sector to participate in the electricity market. The first option is for a private company to sell all the electricity produced by a renewable energy plant to Mexico's state-owned utility CFE.

## Utility scale ESS project financing options in Mexico 2030

---

### Spain's Grid Set to Gain 2.2 GW BESS as BW ESS, Ibersun Join ...

30th June 2025 0 4 Global energy storage owner-operator BW ESS has partnered with Spanish developer Ibersun to launch a joint venture that will deliver 2.2 gigawatts (GW) of utility-scale ...

### Botswana lands funding for its first utility-scale battery ...

The World Bank has provided Botswana, one of the world's fastest-growing economies, with a loan to finance a 50 MW/200 MWh battery energy storage system, the nation's biggest such project to date.

### 31 Working Days! Sineng Achieves Commissioning for Utility-Scale ...

Sineng Electric has successfully completed the grid connection of a transmission scale energy storage project in central Texas--its first utility-scale ESS installation in the ...

## Energy Storage Market in India

Solar and wind power supply fluctuates, Energy storage systems (ESS) play a crucial role in smoothening out this intermittency and enabling a continuous supply of energy when needed.

Thus, for sustainable renewable energy ...

### Cost Projections for Utility-Scale Battery Storage: 2023 ...

The projections in this work focus on utility-scale lithium-ion battery systems for use in capacity expansion models. These projections form the inputs for battery storage in the Annual ...

### ZOE Energy Storage

Our 5MWh containerized ESS delivers utility-scale performance to balance the grid efficiently. Interested in German BESS? Let's discuss how our technology can support your ...

### Solar Power Project Financing: Funding Your Solar Project

Identifying funding for a solar project can be one of the greatest hurdles for a developer. For utility-scale projects especially, which require a good amount of capital, securing funding while ...

## Charging Up: The State of Utility-Scale Electricity Storage in the

Utility-scale storage is starting to expand in the United States, most notably in California and Texas. Several factors could be driving the differences in the rates of growth of ...

## BW ESS and Ibersun sign joint venture to develop 2.2GW BESS ...

24 June 2025, MADRID -- Global energy storage owner-operator BW ESS and Getxo-based energy storage developer Ibersun have signed a joint venture to develop, in its first phase, ...

## SOUTHEAST ASIA'S LARGEST ENERGY STORAGE

---

Based on independent assurance provider DNV's global database of 4,210 ESS projects totalling 32GWh and publicly available information as of January 5, 2023 for a comparable size utility ...

## Battery Energy Storage System Market Size

By end-user application, utility-scale systems accounted for 57% of the battery energy storage system market size in 2024, whereas residential deployments are expected to grow at 19.5% CAGR to 2030.

### PowerPoint Presentation

Rooftop solar takes up 100GW and grid-scale solar target is 100GW by 2030. With the variable nature of solar and wind power, when this RE comes online by 2030, flexible resources needed ...

[Press Release: BYD and Pireos Capital Announce ...](#)

A new two-year partnership agreement for the deployment of utility-scale, industrial, commercial and residential energy storage solutions. Pireos Capital will offer integrated BYD 240MW/100MWh PV+ESS solutions in Mexico.

### Mexico Energy Storage System Market Size and Forecasts 2030

Declining Battery Costs: Falling prices of lithium-ion batteries are making energy storage systems more affordable for residential and utility-scale projects in Mexico. Rising ...

### Clean energy transition in Mexico: Policy recommendations for ...

Mexico should also focus on funding demonstration projects of well-proven technologies and introducing financial incentives to accelerate investments in energy storage. ...

### Indonesia Launches Its First Utility-Scale Solar and ESS Project

The Nusantara Sembcorp Solar Energi Power Plant, Indonesia's first large-scale solar and energy storage project, has been launched by PT Sembcorp Renewables Indonesia ...

### [The Standalone Energy Storage Market in India](#)

Key Findings Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of 2025 alone, accounting for 64% of the ...

### Mexico announces battery storage mandate for renewable ...

A month after India introduced an energy storage mandate for renewable energy plants and China scrapped its own, Mexico has stepped forward with an ambitious 30% ...

### Monthly RE Update - September 2024

Source: JMK Research Auction Completed In September 2024, about 1200 MW of utility scale solar and 1200 MW of storage capacities were allotted to various RE developers. ...

### The MENA region - the next hot market for energy ...

The MENA region is starting to witness a drastic increase in large-scale battery energy storage systems ("BESS") projects, accompanying a soaring penetration of renewable energy. This has happened at a pace, which ...

### Stationary Energy Storage India

In 2019, the first large grid-scale ESS project was commissioned at Tata Power Delhi Distribution Ltd (TPDDL), Rohini Substation in New Delhi for 10 MW - 10 MWh for ...

## Mexico Clean Energy Report

Given the right mix of policies and technical measures, the country could attract large-scale investments and build a clean energy matrix that meets Mexico's energy goals and provides ...

## Mexico Energy Storage System Market Size and Forecasts 2030

Declining Battery Costs: Falling prices of lithium-ion batteries are making energy storage systems more affordable for residential and utility-scale projects in Mexico.

### [Key trends in battery energy storage in China](#)

China has been an undisputed leader in the battery energy storage system deployment by a far margin. The nation more than quadrupled its battery fleet last year, which helped it surpass its 2025 target of 30 GW of ...

## Mexico Energy Sector Reform

These models offer limited but targeted avenues for private-sector involvement, particularly for firms offering specialized technology, project development services, or ...

### [The Standalone Energy Storage Market in India 1](#)

Key Findings Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of 2025 alone, accounting for 64% of the ...

### **The Trends Shaping the Utility-scale Solar Sector in 2025**

Although financing costs rose persistently through 2023 and 2024 due to broader macroeconomic pressures such as the federal interest rate and inflation, the leveled ...

### **BW ESS and Ibersun to develop 2.2GW BESS portfolio across ...**

Global energy storage owner-operator BW ESS and Spanish energy storage developer Ibersun have signed a joint venture to develop, in its first phase, 2.2GW of utility ...

### [1H 2023 Energy Storage Market Outlook](#)

Japan's federal and local governments announced annual subsidy programs for utility-scale batteries, while South Korea set a 25GW/127GWh storage target by 2036. India is taking steps to promote ...

### **BW ESS and ACL Energy will develop 3 GW of BESS capacity in ...**

The energy storage owner-operators had initially announced in February 2024 their partnership to develop three projects with a total combined capacity of 400 MW. This ...

### [More than \\$600m for four US utility-scale batteries](#)

More than \$600m for four US utility-scale batteries Recurrent Energy, Jupiter Power and Peregrine Energy Solutions have secured finance for a cumulative 550 MW of utility ...

### [2H 2023 Energy Storage Market Outlook](#)

The case for long-duration energy storage remains unclear despite a flurry of new project announcements across the US and China. Global energy storage's record additions in 2023 will be followed by a 27% compound ...
