

# Waste battery storage pack

## Overview

---

Is a battery a universal waste?

Once a battery has arrived at the destination facility (i.e., a permitted treatment, storage, or disposal facility or a hazardous waste recycler) for recycling or disposal, it is no longer a universal waste, but a fully regulated hazardous waste.

Can a universal waste handler recycle batteries?

No. Shredding batteries is not an allowable waste management activity for universal waste handlers under part 273 regulations. Batteries can be shredded for recycling at a destination facility, either a hazardous waste recycler with no storage before recycling or a RCRA-permitted treatment, storage, and disposal facility.

Where can a battery be shredded?

Batteries can be shredded for recycling at a destination facility, either a hazardous waste recycler with no storage before recycling or a RCRA-permitted treatment, storage, and disposal facility. When do the universal waste standards no longer apply to a battery being processed at end of life?

.

What is a battery container?

The Battery Container's front load configuration enables the ergonomic loading of heavy car batteries into the Battery Container. The 6.5 Gal bunded base captures and prevents acid leaks into the environment and the weather resistant design enables batteries to be stored outdoor.

Are used lead acid batteries a hazardous waste?

Used Lead acid batteries or Car Batteries are classified as a hazardous waste. As a result their storage, handling and transportation is controlled by several

Federal and State regulations. This fact sheet includes used lead acid battery / car battery storage requirements as well as US lead acid battery shipping / transport requirements.

Where can I recycle used lithium ion batteries?

The EPA Used Lithium-Ion Batteries web page offers resources to find a battery recycling location near you. Household hazardous waste is regulated on the state and local level and state regulatory requirements for batteries may be more stringent than those in the federal program. Be sure to check your state's battery waste policies.
