

# What is the score line for energy storage science and engineering

## Overview

---

International Scientific Journal & Country Ranking Metrics based on Scopus® data as of March 2025.

International Scientific Journal & Country Ranking Metrics based on Scopus® data as of March 2025.

Energy Storage is a journal covering the technologies/fields/categories related to Energy Engineering and Power Technology (Q2); Renewable Energy, Sustainability and the Environment (Q3). It is published by John Wiley and Sons Inc. The overall rank of Energy Storage is 9671. According to SCImago.

The Journal of Energy Storage focusses on all aspects of energy storage, in particular systems integration, electric grid integration, modelling and analysis, novel energy storage technologies, sizing and management strategies, business models for operation of storage systems and energy storage.

Energy storage science and engineering concerns the methods and technologies utilized to capture, retain, and manage energy for future use. 1. The discipline studies systems that enable energy to be stored and retrieved efficiently, 2. It includes various technology applications such as batteries.

Description- ESSE program is about the integration of physics, chemistry, electrical engineering, civil engineering, power engineering and other disciplines, including solar energy, wind energy, chemical energy and comprehensive utilization of energy, that is, electrical energy, solar energy, wind.

The focus of the Energy Storage Science and Engineering program is on the technology of energy storage, including topics such as pumped storage, hydrogen storage, lithium-ion batteries, sodium-ion batteries, supercapacitors, and phase-change energy storage. The program covers the principles of. What is the rank of energy storage?

The overall rank of Energy Storage is 9671. According to SCImago Journal

Rank (SJR), this journal is ranked 0.6. SCImago Journal Rank is an indicator, which measures the scientific influence of journals. It considers the number of citations received by a journal and the importance of the journals from where these citations come.

What is energy storage?

Energy Storage is a journal covering the technologies/fields/categories related to Energy Engineering and Power Technology (Q2); Renewable Energy, Sustainability and the Environment (Q3). It is published by John Wiley and Sons Inc. The overall rank of Energy Storage is 9671. According to SCImago Journal Rank (SJR), this journal is ranked 0.6.

What is the best quartile for energy storage journal?

The best quartile for this journal is Q2. The ISSN of Energy Storage journal is 25784862. An International Standard Serial Number (ISSN) is a unique code of 8 digits. It is used for the recognition of journals, newspapers, periodicals, and magazines in all kind of forms, be it print-media or electronic.

What is the Journal of energy storage?

The Journal of Energy Storage focusses on all aspects of energy storage, in particular systems integration, electric grid integration, modelling and analysis, novel energy storage technologies, sizing and management strategies, business models for operation of storage systems and energy storage developments worldwide.

What is the SJR of the energy storage?

The Energy Storage has an SJR (SCImago Journal Rank) of 0.6, according to the latest data. It is computed in the year 2025. In the past 6 years, this journal has recorded a range of SJR, with the highest being 0.6 in 2024 and the lowest being in 2021. Furthermore, the average SJR of the Energy Storage over the previous 6-year period stands at 3.59.

How much does energy storage if change in 2023?

Energy Storage IF is increased by a factor of 1.96 and approximate percentage change is 71.27% when compared to preceding year 2023, which shows a rising trend. The impact IF, also denoted as Journal impact score (JIS), of an academic journal is a measure of the yearly average number of citations to recent articles published in that journal.

## What is the score line for energy storage science and engineering
