

# Which solar battery is the best

## Overview

---

After reviewing dozens of solar batteries, CNET has named the Bluetti EP900 Home Battery Backup as the best pick for 2025, bumping the Tesla Powerwall from the top spot. It impressed us with strong performance, a solid warranty, a modular design and clear pricing. What are the best solar batteries?

Here's a rundown of the 10 best solar batteries according to our experts, including why we chose them and their pros and cons. Tesla is often credited with making lithium-ion home storage mainstream thanks to its ultra-sleek, reasonably priced Tesla Powerwall.

Which battery is best for home solar storage?

Here are the main ones: **Lithium-Ion Batteries:** Consider these the top-dogs of home solar storage. Efficient, lasting, and light, you may know popular ones like Tesla Powerwall or LG Home 8. **Lead-Acid Batteries:** A bit older and less efficient, but they're kind to your wallet. They might be heavier, but they suit off-grid setups perfectly.

Which batteries are best for a solar roof?

All our top picks are lithium batteries. Tesla Energy is Tesla's clean energy company. It develops fully integrated solar and battery backup roof options for both residential and commercial customers. Tesla Energy has made a significant mark on the solar industry with its affordable batteries in recent years.

What are the best batteries for a solar-plus-battery system?

Here are the key specs of our top batteries: A solar-plus-battery system can slash your energy bills. You'll get the biggest saving if your battery automatically knows when to store and use solar energy, how much to store, and when to utilise off-peak electricity instead. Duracell's Dura5 battery is brilliant at doing this.

What is the best battery for a solar inverter?

Most of today's best batteries are LFP. These batteries are very safe, last a long time, and are relatively affordable. LTO batteries are the cream of the crop (besides being the least power-dense) but have a high upfront price point. A battery's coupling refers to its configuration relative to your solar inverter and electrical panel.

Are solar batteries better than solar panels?

Solar batteries have a shorter lifespan than solar panels, so you may have to replace your battery over the 25-year lifespan of your solar power system. Consider this when calculating the return on your solar investment and deciding on your financing options. Are solar batteries worth it?
