

# Wholesale backup power battery price list in

## Overview

---

Where can I buy wholesale batteries?

Purchase bulk and wholesale batteries for your company at Battery Mart. Our inventory includes wholesale rechargeable batteries, car & ATV batteries, and more!.

How much does a home backup battery system cost?

Home backup battery prices usually range from \$300 to \$4000 depending on the battery type, power output, and capacity. Keep in mind that the base cost is not the only factor to consider. Look beyond it and think about capacity, output, longevity, and maintenance. Lithium-ion batteries, which cost more, do last longer and offer more energy efficiency.

How much does a battery backup generator cost?

Whole-house battery backup generators range in pricing from similar to house batteries (~\$5,000). The cost can go up to \$10,000 and more.

How much does a battery backed-up system cost?

For short power outages, a battery backed-up system can power essential devices for a few hours. These systems cost as low as \$200 and come with a small battery and inverter. They can run basics such as a radio and lights but cannot power larger appliances like a fridge or toaster.

Should you buy a backup battery?

Keeping your own stock of backup batteries is often a great idea for businesses and buying in bulk from us can mean huge cost savings. Priority – while we do pride ourselves on customer service in general, having access to an account representative often means more hands-on support.

Where does battery wholesale ship?

We ship anywhere in the continental US, from the US. Based in Texas, serving customers nationwide since 1998. Battery Wholesale is open to the public, serving individuals, businesses, educational institutions, and large enterprises. Have a question?
