

Zareba 5 mile solar fence charger battery

Overview

How long does a zareba 5 mile solar low impedance fence charger last?

With the Zareba 5 Mile Solar Low Impedance Fence Charger your fence can have power from anywhere. This fence charger runs up to 2 weeks without sunlight and is powered by an internal rechargeable battery. With 0.15 output joules, this energizer will support animals and livestock such as cattle, horses, pigs, and goats.

What is a zareba ® 5 mile Solar Energizer?

Let Zareba® energize your fence with this Zareba ® 5 Mile Solar-Powered Low Impedance Charger. This solar-powered energizer is ideal for use when containing small and exotic livestock. The solar panel features compartmental damage-resistant construction.

Can a zareba 5 mile solar fence charger control livestock?

Controlling livestock in a location without access to AC power is easy with the Zareba 5 Mile Solar Fence Charger. The Zareba 5 Mile Solar Fence Charger powers up to 5 miles of fence and can be used with the following fence types: steel/aluminum, poly wire/poly rope and poly tape.

Does zareba® work with Fi-shock® energizers?

Zareba® repair parts allow you to quickly and easily repair your fence charger. The 6V 5 Mile Solar Energizer Replacement Battery works with Zareba, American FarmWorks, Fi-Shock, and Red Snap' energizers. Zareba ® joins Fi-Shock ® and Electrobraid ® to form the largest manufacturer of electric fence systems in North America.

How do you connect a solar fence to a zareba® Charger?

Connecting your fence is simple with the easy-grip knobs on your 5-mile solar Zareba® charger. Attach the fence's ground wire to the post with the green knob and the live hot wire to the red knob. Remember to turn your charger off

before making any connecting wire adjustments and then turn it back on so it continues to gather solar energy.

How many joules can a zareba® Charger run?

With 0.10 joule output, can be used with light weeds or no weeds and has a range of 5 miles under ideal conditions. The amount of fence line that your Zareba® charger can operate depends on several factors, including the type of fence line you're choosing. Steel wire, for example, carries power further along the fence line than poly fencing.
